swim Like Jai alai skillfully bounces off its allotted space. PEEEX TMA! : there is a max number of allowable planets per solar system which cannot be exceeded : Heeliac xpenta Ma—yes, yes.

Then's Still th' Jai Alai

And then, of course, there's still Jai alai.

What about Jai alai?

Yes{*serenade and flowers*}!

Han-so the town hack-greened.

Party{*serenade and flowers*}!

Buh' why maintain {*srewolf dna edaneres*}Jai alai uh, huh? Yes, why maintain?

Here; 'cause; jai alai was once just another sport involving bouncing a ball off a "walled-in" space by accelerating it to high speeds with a "hand-held" wicker cesta; just as Jai alai is still a sport involving bouncing balls off walled-in spaces by accelerating them to high speeds with hand-held wicker cestas; and, finally, just as Jai alai will always be mandated to exist as a sport involving bouncing precisely made "*balls*" off particularly made, managed, and maintained well-walled-in spaces by casting them forward at disquietingly high speeds using primitively made but surprisingly sturdy hand-held "wicquereenyng" {*Carlyle-Style*} cestas, it needed much maintenance up-on itself, right here; right here; here in this very town.

What town?

Our town.

Yes?

Yes.

Why?

Okay, because; in our town Jai alai once was also a sport involving bouncing a ball off a walled-in space by accelerating it to high speeds with a hand-held wicker cesta. 'kay?

'kay. B', what town?

Our town, of course.

Really?

Yes.

Why?

Well! Of course 'tis because in our very own town { *of which-such you're standing on; of which-such all's standing* } Jai alai was, Jai alai is, and Jai alai always will be an always mandated + “blam-plackto-mania” + to exist superior to all other sports {*liqueberkely quista!*} fast-loose sport this sport yes involving bouncing precisely made “balls” [let's establish a luggage park] **GREEN CITY!** PAN PAN PAN with hand-held wigs ^{^pork^} off 'n walled-in spaces [where luggage owners] by casting them forward **COME SHOP GREEN CITY!** PAN PAN PAN at disquietingly high speeds using [with concerns about the mental health of their luggage] using *c* primitively made **SHOP GREEN** [especially considering the long stretches of “idle time”] but surprisingly *ca* sturdy **CITY!** PAN PAN PAN hand-held, YES hand-held *carm* long deep curved yellow 'r brown [experienced by all but the most highly privileged luggage] surprisingly sturdy [let's establish luggage parks wherein] hand-held **SHOP GREEN CITY!** PAN PAN PAN wicquereenying { *Carlyle-Style* } cestas with *carmen* hand-held wicker [items of luggage of all shapes and sizes can be brought to socialize with others “of their own kind”] with *carmen ba* hand-held wicker cesta *carmen basil* wicker cesta; oh yes *sillio sillio* a hand-held [and thuswise experience vastly improved mental health] wicker cesta yes oh yes, yes oh [please and thank you please and] *thank you oh yes carmen basilio thank you thank you thank you and thank you* and oh, yes—lest ye forget!
