Furtive Pleasures

Ostinato traffic:

the reflex suitors, chamomile to nectar.
Lapping tapestries shadow distant ridges,
and water's cry to sunset's darkening sky:

fenestral music, distant
as tear ducts, overtures
lost pleasures. Escapades

pulse crescendo, wings wake the touch
of azure castanets. Enjambed as freighted
escargot, the finely tutored tapes burn

under noon tankards breezing
lapidary antics. A chameleon
wearing its secondary colors,

dawn ripples

the low tide sneaking

home

as dusk
