

## Past the Larval Harvest

Electrode gauntlet, epidermal elementals  
thicken fixtures along decibel platelets  
crusting filial as dermal transfers quicken  
against transomed epithets turned nominal  
as a sickly gauntlet

PAST THE LARVAL HARVEST NONE OF

THE BARTER'S BITING CROSSWIND

whose flourish trails  
the evident displacement  
of wind chime stutters  
ringing the ramp songs

haunts the nodes, incremental  
as inessential platelets count the stream  
whereas

a vertical turn

thickly

appropriates the floating turn

past wind pockets  
sealing the tainted entity  
against a pectoral mosaic
